## ► Mission

The International Master in Business Administration is aimed at providing a comprehensive programme in general management, providing the skills and concepts participants will need to become key leaders in the everchanging global community.

We offer both a general core curriculum with an international scope, as well as the opportunity to focus on a key sector or function.

After completing the programme, students will have developed a solid background in general management, thus having the opportunity to access relevant job markets.

## ► Target

iMBA targets outstanding candidates from different academic background and with at least 2 years of professional experience, who would like to enrich their business knowledge background with a practically-oriented MBA. The master aims in particular at international oriented profiles, coming from all over the world.

## ► Programme structure

The programme is made up of 10 months of classes, fully delivered in English, structured in traditional teaching sessions, business cases, and role-playing.

During the final four months of the programme, participants work directly with companies or top-management institutions in order to carry out projects within international enterprises.

## ► Main Features

LUISS provides a state-of-the art model for advanced education which cultivates excellence. Our vocation is to select the best. We are in tune with the needs of the global market and emerging professions. Our teaching methods and styles are in line with the most prominent international universities. The objective of the LUISS model is not solely to transmit knowledge but to foster flexibility.

The curriculum is integrated by company visits and study tours, in order to give an empirical flavour to the overall course and to give students the opportunity to grasp the essence of management in actual environments.

The programme includes residential seminars, company visits, and exchanges with other business schools. It ends with a four-month field project in which the participants address a real business management problem.
